1 General presentation

The insurance programme provides Participants in the projects ERASMUS+ “European Voluntary Service” (decentralized actions), “Capacity Building in the field of Youth” (centralized actions), “Large scale EVS Events” (centralized actions) with coverage during their period of voluntary activity.

Cover is offered free of charge to ERASMUS+ Volunteers. The Insurance premiums are paid by EACEA.

The aim of this plan is to give you access to an insurance network which can help you whenever a medical, dental, disability or liability problem occurs.

The role of the **AXA Group** and **MSH INTERNATIONAL** is to obtain for you the financial security of a solid insurance policy, the administrative services of a specialist for groups residing outside their country of origin, as well as the information, medical and repatriation consultancy services of an insurance company that has 35 call centres and 6,500 medical correspondents in 180 countries.

As a general rule, you will be in contact with **MSH INTERNATIONAL**, which will coordinate all the services, except for repatriation and assistance, which will be handled by **AXA ASSISTANCE**.

The ERASMUS+ insurance plan offers the following benefits:

- Health costs
- Assistance & Repatriation
- Death & Disability Benefits: Permanent Disability and Life Insurance
- Third-Party Liability in Private Life

All ERASMUS+ Volunteers may claim the insurance, but will only be covered if the registration form for the group insurance plan has been completed and signed by the Volunteer and the Sending or Hosting Organisation, or by the Volunteer and the Coordinating Organisation in the case of projects on a European scale and multilateral projects with third-party countries.

MSH INTERNATIONAL will send back confirmation to the Coordinating Organisation or the Sending Organisation, as well as the National Agency that sent the Volunteer.

Cover is **valid throughout the world, 24/7**, from the date when you leave home *en route* to the Hosting country, up till the second month following your return home at the end of your ERASMUS+ project. **Cover is also in place for preparatory meetings before your departure and for follow-up and final assessment meetings after your return.**

If you are not covered by any insurance at the end of your voluntary service, you can request to remain covered by the plan for a period of up to twelve months after your return to your country of origin only. **Extensions are entirely optional and the premium will be paid by the Volunteer.**

The currency of the ERASMUS+ insurance plan is the Euro (EUR) but invoices for medical and dental care may be submitted in any other currency. Health care expenses are usually reimbursed in the currency indicated by the Volunteer on the registration form.

2 Admission to the insurance scheme, termination and extension

EFFECT AND DURATION OF THE ERASMUS+ PROGRAMME

EFFECT

Your participation in the ERASMUS+ programme takes effect from the date you join, as communicated by your Sending or Hosting Organisation via our on-line registration system, and following receipt of the registration form duly completed and sent to **MSH INTERNATIONAL**.

Your dependents can only claim the benefit of the cover to the extent that the Volunteer himself benefits from the benefits of the ERASMUS+ programme.

DURATION

For each Volunteer (and consequently his dependents on the same date), the benefits of the ERASMUS+ programme cease on the date when cover ends, as communicated by the Sending or Hosting Organisation via our on-line registration system.

You may benefit from an extension of the healthcare coverage only under the following conditions:

At the end of your ERASMUS+ project, you benefit from an extension of your healthcare coverage free of charge for two months, valid in the hosting country or in the country of origin. **The other benefits are excluded from the extension of optional cover (death & disability benefits, assistance & repatriation, third-party liability).**

▪ **Optional extension beyond the free two-month period of cover**

At the end of this two-month period, if you are not covered by any insurance policy, you might wish to remain covered by the insurance plan for a **maximum period of twelve months** after your return, exclusively in your country of origin. **The other benefits are excluded from the extension of optional cover (death & disability benefits, assistance & repatriation, third-party liability).**

The extension is entirely optional and the premiums are paid by each ERASMUS+ Volunteer.

The period during which cover is maintained must be fixed and final. Confirmation that your cover is being maintained will be effective after receipt of payment for the premium, which is payable by direct bank transfer or by cheque in euros made out to MSH INTERNATIONAL.

In order to benefit from this extension, you must inform MSH INTERNATIONAL one month before the end of your ERASMUS+ project or free two-month cover period, at the address below:

3 Reimbursement of health costs

You are covered for the **costs of hospitalisation, surgery, medical and dental treatment throughout the world, on condition that such treatment and/or supplies are recognised by the local medical authorities as being essential to the treatment of the illness, the injury or (as the case may be) pregnancy, and provided by medical practitioners working in the field for which they are qualified (in accordance with the legislative, regulatory or other provisions concerning the exercise of their profession in the country concerned).**

You are free to choose your own doctors and hospitals.

You can use the public or private health service.

Practical information on Expat Health

Do not hesitate to consult the database of medical providers and hospitals referenced by our consulting physicians on your Participant's Pages at www.msh-intl.com/global.

Health costs will only be reimbursed in cases where the medical and dental services:

- correspond to the symptoms and the diagnosis,
- are necessary and appropriate in the treatment of the illness, injury or pregnancy,
- that the expenses for the services are reasonable and actually incurred.

The health costs will be reimbursed complementarily to any reimbursements from any Social Security organisation or any other insurance you may have.

If you are receiving allowances from the local social security system in your country of origin or your hosting country, you must first obtain the reimbursement from those systems before submitting your request for reimbursement to MSH INTERNATIONAL.

The benefits paid out under the ERASMUS+ programme are then deducted from those paid by the local social security system of the country of origin or hosting country.

This means that you must obtain the European Health Insurance Card to be able to obtain the reimbursement of your health costs by the local social security system of your country of origin or your hosting country.

This card, issued in your name, is free and valid for one year.

I PRE-CERTIFICATION

MEDICAL OR SURGICAL HOSPITALISATION

▶ **In case of scheduled hospitalisation**

At least 10 days before your admission to the hospital, **contact MSH INTERNATIONAL**, so that they can send a confirmation of direct payment for hospital costs.

This will prevent you from having to pay out an advance on the costs.

You will only have to pay the costs not covered by the insurance and, in all cases, your personal expenses such as telephone and television.

▶ **In case of emergency**

MATERNITY

Send **MSH INTERNATIONAL** a **declaration of pregnancy** before the end of the third month.

A pre-certification agreement will be sent as and when required to the hospital centre to cover the costs of childbirth in accordance with the terms of your policy.

This will prevent you from having to pay out an advance on the costs.

"On-line" pre-certification

Fill in your request for pre-certification directly under "Precertification and Direct Payment Request" in your Participant's Pages on www.msh-intl.com/global.

I HOW WILL YOU BE REIMBURSED

For the usual medical expenses (consultations, pharmacy, tests, radiology, as well as dental and optical care), **first pay the expenses before sending them to the management centre for reimbursement.**

Please make sure you provide us with your bank details to facilitate the reimbursement of your costs: IBAN + SWIFT CODE + Address and Name of your Bank + Surname and First Name of the account holder.

Fill in your on-line reimbursement request carefully:

Practical advice

Take the precaution of making photocopies of all the documents you send.

Try to **group your reimbursement requests together**, so as to avoid reimbursements for small amounts.

- ▶ **Check the information concerning you** (contact details, e-mail, dependents, etc.) and **modify it** where necessary.
- ▶ **For each treatment, service or product** you must: Enter the date, give a **brief description**, state **the nature of the illness or injury** requiring the treatment, indicate the country in which the treatment was given, state the **amount paid**/the currency, the **practitioner or hospital**.
- ▶ After checking this form, you can print out the pdf.
Attention: before sending it to the management centre, you must:
 - **date and sign** the form (section 4);

do not forget to send the originals of your medical prescriptions, bills for fees and invoices. These documents must mention the last and first names of the patient, the date when treatment was given, a detailed description of the treatment, the amount of expenses for each category of treatment, the name, address and telephone number of the practitioner, the hospital, laboratory or pharmacy.

Cash receipts that do not show all this information will not be accepted.

For treatment given in France, you must supply the Social Security treatment slips and the stickers (for medications).

- **For optical treatment, pharmacy, lab tests and physiotherapy sessions**, the invoices must be accompanied by the prescription of the prescribing physician (originals).
- **For any expense greater than €400**, please attach any document filled in by the practitioners showing details of the treatment, the nature of the illness or injury, and the type of treatment prescribed. In the absence thereof, **MSH INTERNATIONAL** may require you to send additional documents, which will delay the refund of your health expenses.

Monitoring your reimbursement requests

Requests for reimbursement that have been uploaded are **saved and can be consulted** for a year in the Participants' Pages under the heading "**Your Claims**".

If you, your spouse or your children are covered by the local Social Security scheme of your country of origin or your hosting country (or another insurance policy), or if you have the European health insurance card, you must first obtain reimbursement from those organisations before submitting your request for reimbursement to MSH INTERNATIONAL.

In this case, please send a copy of all the corresponding bills for fees with your request for reimbursement, together with the original of the reimbursement calculation of the first organisation.

If the intervention of the local Social Security system has been refused for any reason, even though you are in possession of the European health insurance card, you can submit your request to **MSH INTERNATIONAL** together with a letter explaining why your request was rejected, and a copy of the refusal letter issued by the local Social Security organisation.

You have 12 months after the date when treatment was given to send your request for reimbursement.

My reimbursement notices

When you send us your e-mail address ("[Your Details](#)" on the website), you will receive a warning message each time a new calculation has been processed for you.

When the processing has been done, you can **display details of your reimbursement under "Your Reimbursement Notices"** in the Participants' Pages on the website.
